- This is where I currently attend college studying computer science and web development. I plan on transferring to a Cal State or University in the future.
- **Related Coursework:** Data Structures & Algorithms, Objects & Design, Computer Organization & Programming, Object-Oriented Programming, Statistics, Web Development, Frontend Development.

EXPERIENCE

Target, Menifee, CA

September 2022 - Current

Fulfillment Expert

- Collaborate effectively with team members to streamline the fulfillment process, increasing order completion speed and helping the store consistently meet daily fulfillment quotas.
- Demonstrate strong problem-solving and time-management skills by efficiently balancing guest assistance with order accuracy, ensuring a positive guest experience and timely deliveries.
- Contribute to team efficiency by organizing fulfillment carts and coordinating workload distribution, resulting in faster turnaround times and improved team productivity.
- Maintain high fulfillment accuracy and efficiency while supporting peak volume periods, reinforcing Target's reputation for reliability and guest satisfaction.

Morningside of Fullerton Fullerton, CA

November 2021 — May 2022

Server (Food & Beverage)

- Worked collaboratively with team members in a fast-paced dining environment to ensure prompt, high-quality service and resident satisfaction.
- Managed multiple tables simultaneously with efficiency and attention to detail, maintaining accuracy under pressure.
- Communicated effectively with kitchen and service staff to deliver meals quickly and correctly, enhancing overall guest experience.
- Balanced speed and hospitality to meet service standards and uphold a positive dining atmosphere for residents.

PROJECTS

[Full Portfolio](#)

[Github](#)

- **Sports Scoreboard Web App (NBAGO):** Built a responsive sports scoreboard web application using **React, Vite, and Tailwind CSS** that displays scheduled, live, and completed games with dynamic UI updates. Implemented **React Router for multi-page navigation**, reusable components (GameCard/GameGrid), and **favorite team functionality using React Context and localStorage** to personalize the user experience.
-
